## ARIZONA NOTARY REQUIREMENTS (8/2014)

The State of Arizona requires each notary to use a rectangular rubber ink stamp (no larger than 1-1/2 inches high and 2 1/2 inches wide) as their official seal. An embossing seal may be used but only in conjunction with the ink stamp. The imprint of the notary seal on notarized documents must be made in dark ink, as required by Arizona law, and photographically reproducible. The rubber stamp is your official seal, but you may use an embosser in addition to the rubber stamp. The rubber stamp must contain five things: 1. The words "NOTARY PUBLIC"; 2. The name of the county in which you are commissioned; 3. Your name EXACTLY as it appears on the bond and the application form; 4. Your current commission expiration date; and 5. The Great Seal of Arizona.

## RUBBER STAMP TYPES

**Good...**

### Regular Hand Stamps

These are good reliable basic stamps, they require the use of a separate rubber stamp pad, and are the most economical.

**Better...**

### Self Inking Stamps

These stamps work in a Press and Print manner with an ink pad built in the unit. Self Inking Stamps are good for about 5,000 impressions and are re-inkable when the ink starts running low.

**Best...**

### Slim Pre-Inked Stamps

These are the best stamps to own. They are pre-inked and work in a Press and Print manner, and because of their sleek, compact design, they can fit easily in a purse, pocket or briefcase. Slim Stamps are good for about 10,000 impressions and are reinkable when the ink starts running low.
